## Registered in Scotland No. 130668

## INTERIM ACCOUNTS

**1 July 1997 to 31 December 1997**

**Prepared and lodged pursuant to s.272 Companies Act 1985**

# STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE INTERIM ACCOUNTS

The law requires that a company shall not make a distribution except out of profits available for the purpose. The accounts which are relevant for determining the profits available for distribution are, in the first instance, the last annual accounts. Where the distribution would be found to contravene the law if reference were made to the Company's last annual accounts, then the Directors may prepare interim accounts. Interim accounts are required to give a true and fair view of the state of affairs of the Company as at the balance sheet date and of the profit or loss of the Company for the period in respect of which the accounts are prepared. In preparing these accounts, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts;
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# NOTES ON THE ACCOUNTS

## 1 ACCOUNTING POLICIES

A summary of the principal accounting policies, all of which have been applied consistently throughout the period and with the preceding year, is set out below.

### (a) Basis of accounting

The accounts are prepared under the historical cost convention, modified to include the revaluation of investments. The accounts have been prepared in accordance with applicable accounting standards and with the Statement of Recommended Practice "Financial statements of investment trust companies" ("SORP") except for the basis of the allocation of the investment management fee and the tax effect thereon between capital and revenue. This exception is in accordance with the recommendation of the SORP that certain split capital investment trusts should not comply with those recommendations which, if implemented, could affect the financial benefits or rights attaching the different classes of security.

### (b) Valuation of investments

Quoted investments are valued at middle market prices. Where trading in the securities of an investee company is suspended, the investment is valued at the Board's estimate of its net realisable value.

Realised surpluses or deficits on the disposal of investments are taken to capital reserve - realised and unrealised surpluses and deficits on the revaluation of investments are taken to capital reserve - unrealised as explained in note 1(f) below.

### (c) Income

Dividends receivable on quoted equity shares are brought into account on the ex-dividend date.

Where the Company has elected to receive its dividends in the form of additional shares rather than in cash, the amount of the cash dividend is recognised as income. Any excess in the value of the shares received over the amount of the dash dividend is recognised in capital reserves.

Other income is accounted for on an accruals basis.

### (d) Expenses

All expenses are accounted for on an accruals basis. Expenses are charged through the revenue account except as follows:

- expenses which are incidental to the acquisition of an investment are included within the cost of the investment;

- expenses which are incidental to the disposal of an investment are deducted from the disposal proceeds of the investment;

- expenses are charged to capital reserve-realised where a connection with the maintenance or enhancement of the value of the investments can be demonstrated. In this respect the investment management fee has been allocated 62.5% to capital reserve-realised and 37.5% to revenue account.

**(e) Taxation**

Advance corporation tax ("ACT") payable on dividends paid or provided for in the year is written off, except when recoverability is considered to be reasonably certain and foreseeable. In considering recoverability, debit balances arising in respect of ACT on dividends payable or proposed at the balance sheet date are carried forward only to the extent that it is foreseen that they will be recovered against the tax liability of the current year or the subsequent year, having regard to projected dividend payments and of income for that subsequent year and the amount of any ACT likely to be paid, without being replaced by equivalent debit balances. Irrecoverable ACT is charged to the revenue account except to the extent that it arises because of the allocation of expenses to capital leading to a higher distribution.

The tax effect of different items of income/gain and expenditure/loss is allocated between revenue and capital on an equitable basis determined by the Directors.

**(f) Capital reserves**

Capital Reserve - Realised

The following are accounted for in this reserve:

- gains and losses on the realisation of investments;

- expenses, together with the related taxation effect, charged to this reserve in accordance with the above policies.

Capital Reserve - Unrealised

The following are accounted for in this reserve:

- increases and decreases in the valuation of investments held at the period end.

Income Shareholders are entitled to all profits of the Company available for distribution by way of dividend. In a winding up they are entitled to a payment of 10 pence (their nominal value) per share plus any undistributed revenue reserve. Save in relation to any resolution to wind up the Company on or after 1 July 2001 and certain resolutions to reconstruct the Company (on which resolutions the Income Shareholders shall all be deemed to vote in favour), Income Shareholders are entitled to one vote per share.

Capital Shareholders do not participate in any dividend or in any revenue reserve. In a winding up they are entitled to all surplus assets of the Company after payment to the Income Shareholders of 10 pence per Income Share plus any undistributed revenue reserve. Capital Shareholders are entitled to one vote per share.

The Directors are obliged to convene an Extraordinary General Meeting of the Company between 1 July 2001 and 30 June 2004 at which a Special Resolution will be proposed to wind up the Company voluntarily. In common with other investment trust companies whose capital structure is similar, it is the Directors' intention (barring unforeseen circumstances) to convene such a meeting towards the end of the required period.

The Directors shall not, however, be required to convene such an Extraordinary General Meeting if a resolution shall previously have been passed to reconstruct or reorganise the Company (whether by way of unitisation or otherwise).
