ACCOUNTING POLICIES
for the year ended 31 March 2013

Basis of preparation
The financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006 and the financial reporting standards. The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Cash flow statement
The company has availed of the exemption in FRS 1 from the requirement to produce a cash flow statement because it is classed as a small company.

Turnover
Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

Pensions
The pension costs charged in the financial statements represent the contribution payable by the company during the year.
The regular cost of providing retirement pensions and related benefits is charged to the profit and loss account over the employees' service lives on the basis of a constant percentage of earnings.

Tangible fixed assets and depreciation
Tangible fixed assets are stated at cost or at valuation, less accumulated depreciation. The charge to depreciation is calculated to write off the original cost or valuation of tangible fixed assets, less their estimated residual value, over their expected useful lives as follows:

Fixtures, fittings and equipment	-	25% Reducing Balance
Motor vehicles	-	25% Straight Line
Software	-	25% Straight Line

Taxation
Current tax represents the amount expected to be paid or recovered in respect of taxable profits for the year and is calculated using the tax rates and laws that have been enacted or substantially enacted at the balance sheet date.

Government grants
Capital grants received and receivable are treated as deferred income and amortised to the profit and loss account annually over the useful economic life of the asset to which it relates. Revenue grants are credited to the profit and loss account when received.

Foreign currencies
Monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Transactions, during the year, which are denominated in foreign currencies are translated at the rates of exchange ruling at the date of the transaction. The resulting exchange differences are dealt with in the profit and loss account.

Pensions
The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. Annual contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
