1 Accounting policies

Basis of preparation of accounts

The accounts have been prepared under the historical cost convention.

The company has taken advantage of the exemption in the Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives as follows:

Tenant's improvements	-	10% straight line
Plant and equipment	-	20% straight line
Motor vehicles	-	25% reducing balance
Office equipment	-	10% - $33^{1}/_{3}$% straight line

Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value. Short term contracts are stated at cost less progress payments received and receivable.

Long term contracts are assessed on a contract by contract basis and are reflected in the profit and loss account by recording turnover and related costs as activity progresses. Where the outcome of each long term contract can be assessed with reasonable certainty before its conclusion, the attributable profit and loss account is the difference between the turnover and the related cost for that contract.

Pensions

The company operates a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year.

The assets of the schemes are held separately from those of the company in independently administered funds. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the schemes.
