Notes to the abbreviated financial statements
for the year ended 30th September 2006

COMPLIANCE WITH ACCOUNTING STANDARDS

The accounts have been prepared in accordance with applicable accounting standards. The particulars of material departures with reasons are as follows:

A) SSAP 19 Accounting for Investment Properties has not been complied with in the absence of a valuation of the let properties.

1. Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same accounts.

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005).

1.2. Goodwill

Acquired goodwill is capitalised and written off in equal annual instalments over its estimated useful economic life of 5 years.

1.3 Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Land and buildings	1% per annum straight line
Equipment under finance leases	over the term of the lease
Computer equipment	20% per annum straight line
Fixtures, fittings and equipment	15% per annum reducing balance
Motor vehicles	25% per annum reducing balance

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

1.5. Stock

Stock is valued at the lower of cost and net realisable value with proper provision being made for obsolete and slow moving stock. Cost comprises invoice price of materials purchased.

1.6. Pensions

The company operates a money purchase (defined contribution) pension scheme. Contributions payable to this scheme are charged to the profit and loss account in the period to which they relate. These contributions are invested separately from the company's assets.
