NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2000

1. STATEMENT OF ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention and with the Financial Reporting Standard for Smaller Entities (effective March 2000).

Turnover
Turnover represents the total invoice value, excluding value added tax, of goods sold and services rendered during the year.

Depreciation of tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its useful life:

Fixtures, fittings and equipment	15% reducing balance
Motor vehicles	25% reducing balance

Stocks
Stocks are stated at the lower of cost and net realisable value.

Net realisable value is based on estimated selling price less further costs to completion and disposal.

Deferred taxation
Deferred taxation is provided using the liability method on all timing differences to the extent that they are expected to reverse in the future without being replaced, calculated at the rate at which it is anticipated the timing differences will reverse.

Leasing and hire purchase commitments
Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and are depreciated over their estimated useful lives. The interest element of the rental obligations is charged to the profit and loss account over the period of the lease.

Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Pension costs
The company operates a money purchase (defined contribution) pension scheme. Contributions payable to this scheme are charged to the profit and loss account in the period to which they relate. These contributions are invested separately from the company's assets.
