NOTES ON ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST OCTOBER 1994

PRINCIPAL ACCOUNTING POLICIES

1. The financial statements have been prepared in accordance with generally accepted accounting principles in the United Kingdom. A summary of the more important accounting policies, which have been applied consistently, is set out below.

BASES OF ACCOUNTING

The financial statements are prepared in accordance with the historical cost convention.

The company has taken advantage of the exemption in Financial Reporting Standard No. 1 from producing a cash flow statement.

FIXED ASSETS

The cost of fixed assets is their purchase cost, together with any incidental expenses of acquisition.

Depreciation is calculated so as to write off the cost, or valuation, of tangible fixed assets, less their estimated residual values, on a straight line basis over the expected useful economic lives of the assets concerned. The principal annual rates used for this purpose are:

	%
Motor vehicles	25
Fixtures and fittings	15
Plant and machinery	15

STOCKS AND WORK IN PROGRESS

Stocks and work in progress are stated at the lower of cost and net realisable value. In general, cost is determined on a first in first out basis and includes transport and handling costs; in the case of manufactured products cost includes all direct expenditure and production overheads based on the normal level of activity. Provision is made where necessary for obsolete, slow moving and defective stocks.

TURNOVER

Turnover, which excludes value added tax and trade discounts, represents the invoiced value of goods and services supplied and the value of long term contract work done.

TAXATION

Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is probable that a liability or asset will crystallise.

2. STATEMENT OF DIRECTORS' RESPONSIBILITIES

Company Law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit and loss of the company for that period. In preparing those financial statements the directors are required to:-

select suitable accounting policies and then apply them consistently;

make judgements and estimates that are reasonable and prudent;

state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;

prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.
