NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 AUGUST 2003

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

The company meets its day to day working capital requirements through an overdraft facility which is repayable on demand but which is guaranteed by the parent company.

The directors have prepared projected cash flow information for the period ending 9 months from the date of their approval of these financial statements. On the basis of this cash flow information and discussions with the company's bankers, the directors consider that the company will continue to operate within the facility currently agreed and within that which they expect will be agreed when the company's bankers consider renewing the facility for a further year. The parent company has also expressed its willingness to continue to provide financial support for the next twelve months.

However, the margin of facilities over requirements is not large and, inherently there can be no certainty in relation to these matters. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of the overdraft facility by the company's bankers.

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Freehold land and buildings	2% Straight line
Plant and machinery	20% Reducing balance/20% Straight line
Fixtures, fittings & equipment	10% Straight line
Motor vehicles	25% Straight line
